RESEARCH INTERESTS

Computational social science, text as data, causal inference, machine learning for social science, sociology, and political science

ACADEMIC APPOINTMENTS

Princeton University

Professor, Department of Sociology, July 2026–

Faculty Affiliate, Department of Politics 2015–

Faculty Associate, Office of Population Research 2015–

Faculty Associate, Center for Digital Humanities 2015–

Faculty Associate, Center for Statistics and Machine Learning 2015–

Faculty Associate, Center for Information Technology Policy 2016–

Faculty Associate, Institute for Computational Science and Engineering 2016–

Faculty Associate, School of Public and International Affairs 2023–2027

Faculty Associate, Data-Driven Social Science 2024–

Associate Professor, Department of Sociology, July 2022–June 2026

Assistant Professor, Department of Sociology, July 2015–June 2022

Arthur H. Scribner Bicentennial Preceptor July 2018–June 2021

EDITORIAL POSITIONS

Current

Co-Editor-in-Chief, *Political Analysis*, August 2024–August 2026
joint with Dan Hopkins

Associate Editor, *Sociological Methods & Research*, March 2023–
handling manuscripts on text as data and AI

EDUCATION

Harvard University

Ph.D., Government, May 2015

Committee: Gary King, Beth Simmons, Dustin Tingley

A.M., Statistics, May 2014

College of William & Mary

B.A., Government and International Relations, May 2007

- *summa cum laude*

- Highest Honors in Government

dsl: DSL is a general estimation framework for using predicted variables in statistical analyses with Naoki Egami, Musashi Hinck, and Hanying Wei. <https://naokiegami.com/dsl/>

conText: An R package for text embedding with Pedro Rodriguez, Arthur Spirling, and Sofia Avila. <https://cran.r-project.org/web/packages/conText/index.html>

SUN: Python implementation of the SUPervised Nonnegative matrix factorization topic model with Till R. Saenger, Musashi Hinck, and Justin Grimmer. <https://github.com/TillRS/suntopicmodel>

validateIt: An R package for topic and label validation with Luwei Ying and Jacob Montgomery. <https://cran.r-project.org/web/packages/validateIt/index.html>

Older Software Packages

stmCorrViz: R package for generating an interactive visualization of topic correlations and hierarchy in a Structural Topic Model (STM) with Antonio Coppola, Margaret E. Roberts and Dustin Tingley.
<https://cran.r-project.org/web/packages/stmCorrViz/>

stmBrowser: R package which allows users to interactively explore the relationships between topics and the covariates estimated from the *stm* package in R. With Michael K. Freeman, Jason Chuang, Margaret E. Roberts and Dustin Tingley. <https://www.structuraltopicmodel.com>

stmgui: R package providing a graphical user interface for the 'stm' text analysis package with Dan Zangri and Dustin Tingley. <https://CRAN.R-project.org/package=stmgui>

textmatching: An R package for adjustment with text-based confounding with Richard A. Nielsen and Margaret Roberts.

lbfgs: An R package for limited-memory BFGS optimization with Antonio Coppola. <https://cran.r-project.org/web/packages/lbfgs/index.html>

AWARDS

Gosnell Prize for Excellence in Political Methodology (2025)

for the best work in political methodology presented at any political science conference during the preceding year. Awarded to "Using Large Language Model Annotations for the Social Sciences: A General Framework of Using Predicted Variables in Downstream Analyses" with Egami, Hinck and Wei.

ASA Methodology Section Outstanding Publication Award (2025)

recognizes an outstanding article or book in sociological methodology published in the prior three calendar years. Awarded for *Text as Data: A New Framework for Machine*

Learning and the Social Sciences with Grimmer and Roberts

ASA Methodology Section Leo Goodman Award (2024)

honors an outstanding researcher in sociological methodology within 15 years of PhD receipt.

Political Methodology Emerging Scholar Award (2023, awarded 2024)

honors a young researcher, within ten years of their degree, who is making notable contributions to the field of political methodology.

ASA Methodology Section Outstanding Publication Award (2022)

recognizes an outstanding article or book in sociological methodology published in the prior three calendar years. Awarded for “What is Your Estimand? Defining the Target Quantity Connects Statistical Evidence to Theory” with Lundberg and Johnson

Graduate Mentoring Award (2020)

honors Princeton faculty members (one in each of four divisions) who are exemplary in supporting the development of their graduate students as teachers, scholars, and professionals based on nominations from graduate students.

Outstanding Faculty Advisor Award (2019)

selected by the graduating class of undergraduate students concentrating in Sociology at Princeton University.

Society for Political Methodology Statistical Software Award (2018)

recognizes individuals for developing statistical software that makes a significant research contribution. Awarded to *stm* with Roberts and Tingley.

Arthur H. Scribner Bicentennial Preceptorship (2018-2021)

the bicentennial preceptorship is a three-year honorific appointment held by approximately ten early-career scholars at any one time across all departments at Princeton.

ACM Learning at Scale Conference Best Paper Award (2016)

awarded to “The Civic Mission of MOOCs” with Reich, Mavon and Tingley.

William and Mary Baxter-Ward Fellow (2015)

invited lecture and honor for distinguished alumni of the William & Mary Government department.

Edward M. Chase Dissertation Prize (2015)

for the best essay on a subject relating to the promotion of world peace among any student at Harvard University. Awarded to “Three Papers in Political Methodology.”

Gosnell Prize for Excellence in Political Methodology (2014)

for the best work in political methodology presented at any political science conference during the preceding year. Awarded to “Structural topic models for open-ended survey responses” with Roberts, Tingley and coauthors.

The Political Analysis Outstanding Reviewer Award (2014)

for exemplary assistance to Political Analysis

Political Analysis Editor’s Choice Award (2013)

for an article providing an especially significant contribution to political methodology. Awarded to ‘Text as Data’ with Grimmer.
